Introducción: Programas espaciales en Europa

PROGRAMAS  **esa**

IMAGEN: ESA

ACTIVIDADES UE 

 PROGRAMA ESPACIAL UE

**ACTIVIDADES I+D+i ESPACIO
HORIZONTE EUROPA**

El sector espacial en Horizonte Europa

Pillar 1 Excellent Science

European Research Council

Marie Skłodowska-Curie Actions

Research infrastructures

Pillar 2 Global Challenges and Industrial Competitiveness

Clusters

1. Health
2. Culture, Creativity and Inclusive society
3. Civil Security for Society
4. Digital, Industry and Space
5. Climate, Energy and Mobility
6. Food, Bioeconomy, Natural resources, Agriculture and Environment

Joint Research Centre

Pillar 3 Open Innovation

European Innovation Council

European innovation ecosystems

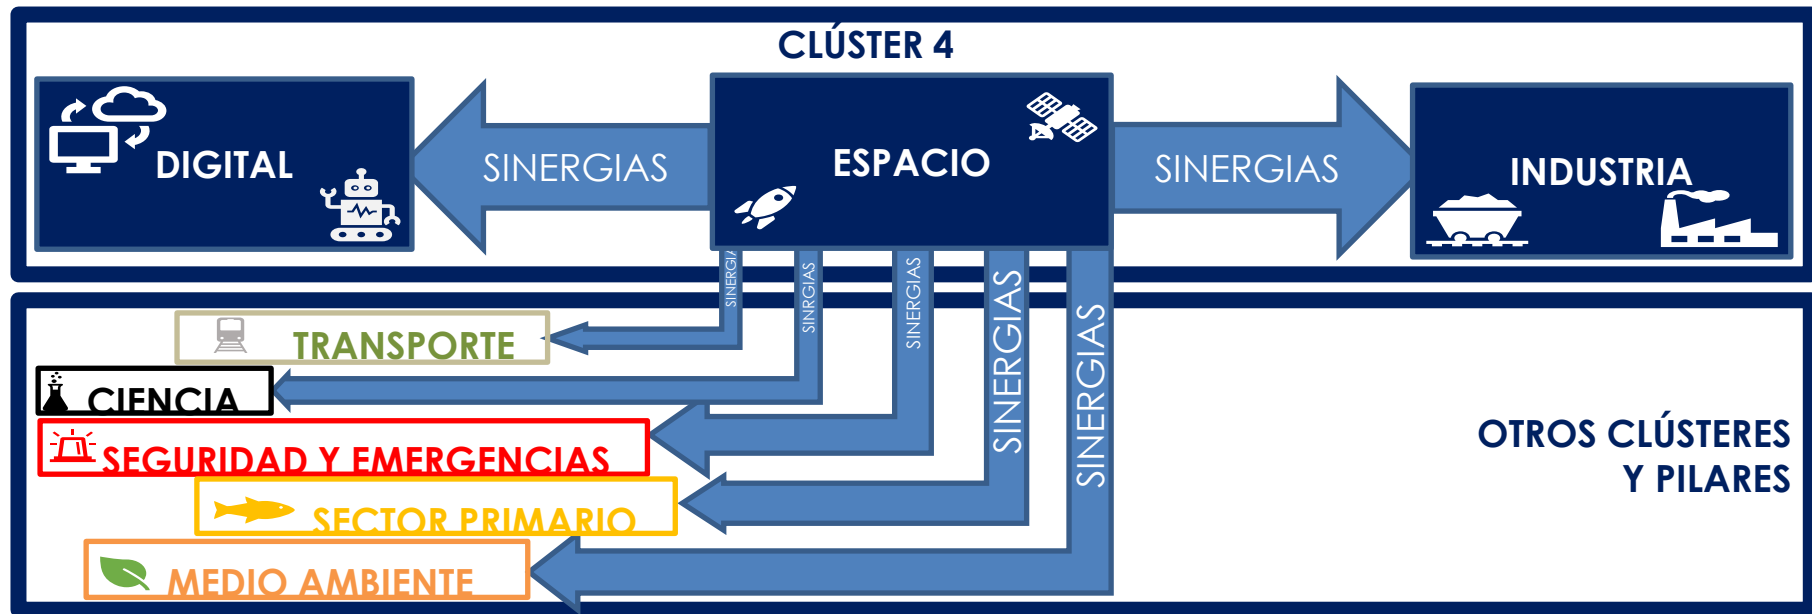

European Institute of Innovation
and Technology

Strengthening the European Research Area

Widening participation and Spreading excellence

Reforming and Enhancing the European R&I system

El sector espacial en el clúster 4

Clúster 4 – Destino 5: ESPACIO

D1 – Climate neutral, circular and digitised *production* TWIN-TRANSITION

D2 – A digitised, resource-efficient and resilient *industry*

D3 – World leading *data* and *computing* technologies

D4 – Digital and emerging *technologies* for competitiveness and fit for the green deal

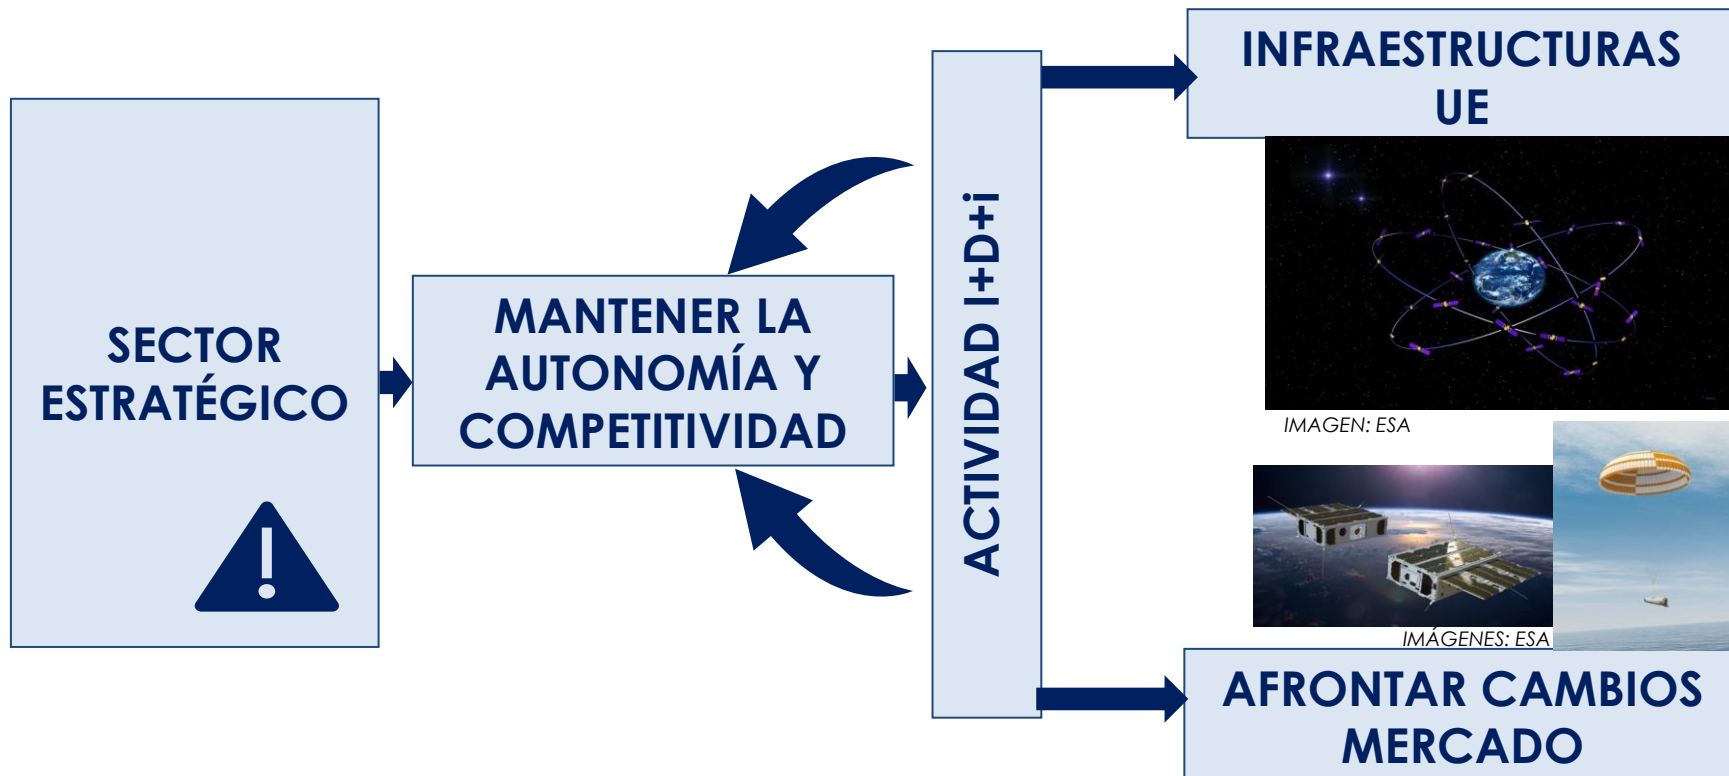

D5 – Strategic autonomy in developing, deploying and using global *space*-based infrastructures, services, applications and data

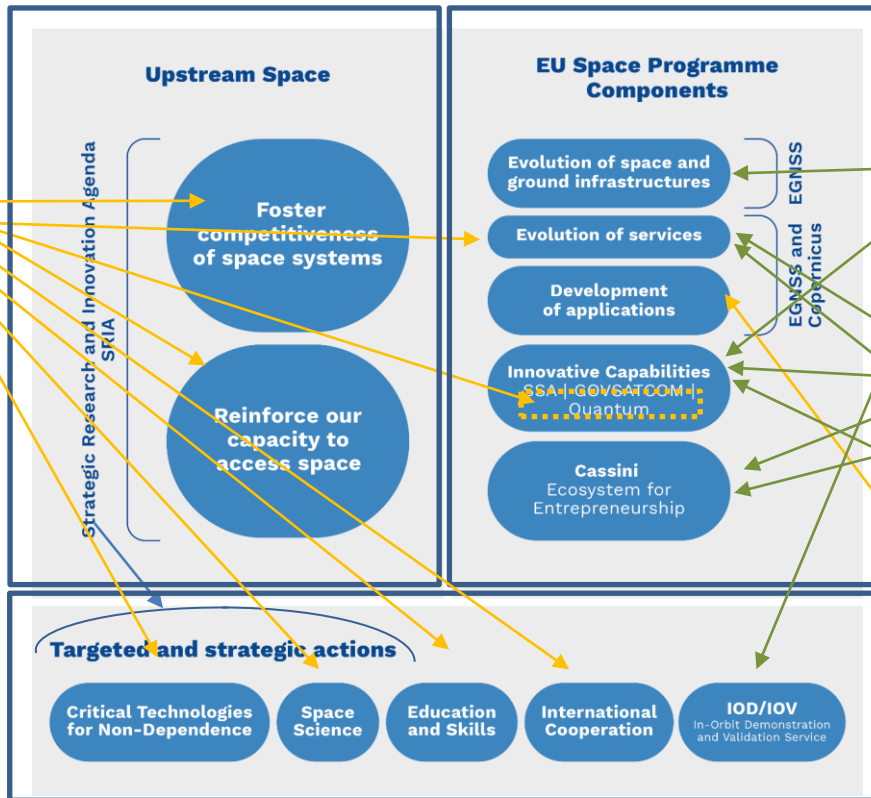

D6 – A *human-centred* and ethical development of digital and industrial technologies

Estrategia del sector espacial: dos ejes

Actividades Horizonte Europa - espacio: diagrama de bloques

CONVOCATORIA HORIZON-EUSPA-2022-SPACE-02

OPEN	3 Noviembre 2022
CLOSE	2 Marzo 2023

OTHER ACTIONS NOT SUBJECT TO CALLS FOR PROPOSALS....	435
Grants to identified beneficiaries	435
[.....]	
5. Project monitoring (digital).....	474
Scientific and technical services by the Joint Research Centre	475
1. Scientific and technical services by the Joint Research Centre.....	475
2. Criteria for Safe and Sustainable-by-Design advanced materials and chemicals	475
3. Support for the Strategic Implementation Plan of the European Innovation Partnership on Raw Materials and the Action Plan on Critical Raw Materials	476
Indirectly managed actions.....	476
1. Indirectly managed actions delegated to ESA	476
2. Indirectly managed actions delegated to EUSPA	480

Convocatoria HORIZON-EUSPA-2022

Type of Action	Topic	Indicative budget (EUR min)	Funding rate
IA	EGNSS applications for Smart mobility	9.5	70% (except for non-profit legal entities, where a rate of 100% applies)
PCP	Public sector as Galileo and/or Copernicus user	5.2	100%
IA	Copernicus downstream applications and the European Data Economy	9.6	70% (except for non-profit legal entities, where a rate of 100% applies)
RIA	Large-scale Copernicus data uptake with AI and HPC	9.6	100%
RIA	Designing space-based downstream applications with international partners	5,1	100%
RIA	GOVSATCOM Service developments and demonstrations	9,1	100%
TOTAL budget:		48,1	

Open 3 Noviembre 2022
Close 2 Marzo 2023

Innovation action (IA)

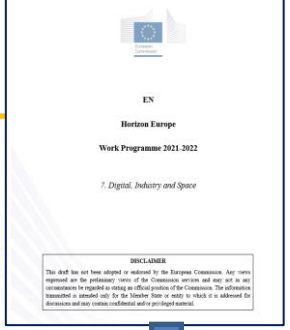

Activities to produce plans and arrangements or designs for new, altered or improved products, processes or services.

Research and innovation action (RIA)

Activities to establish new knowledge or to explore the feasibility of a new or improved technology, product, process, service or solution.

Pre-commercial procurement actions/ (PCP)

Activities that aim to help a buyers' group to strengthen the public procurement of research, development, validation and, possibly, the first deployment of new solutions

PÁGINA 492

Usos de GNSS (GALILEO y EGNOS)

IMÁGENES Y TEXTO EUSPA

- 10% del PIB de la UE depende de la navegación por satélite
- Soluciones de consumo, turismo y salud
- Apoyo al TRANSPORTE:
 - Automoción (segundo mercado en importancia)
 - >360 aeropuertos usan EGNOS (navegación más exacta y confiable)
 - Navegación más sostenible y segura
 - Apoyo al sistema europeo de gestión del tráfico ferroviario (ERTMS)
- Apoyo a la agricultura de precisión
- Soluciones de control de tiempos en infraestructuras críticas

Usos de Copernicus

- **Proveedor n.1 de datos de espacio >20 TB/día**
- **Agricultura:**
 - Monitorización de parámetros del suelo, cultivos, sequías, etc
 - Indicadores del clima
 - Apoyo a la seguridad alimentaria
 - Reducción del impacto medioambiental
- **Digitalización: planificación redes 5G/6G**
- **Transporte:**
 - Predicciones de las condiciones de las carreteras
 - Modelos de la calidad del aire (movilidad sostenible)
 - Condiciones de la mar (transporte marino)
- **Construcción e infraestructuras**
- **Minería**
- **Energías renovables**

IMÁGENES EUSPA

Usos de GOVSATCOM

- **Puesta en común de las infraestructuras satelitales de comunicación para uso por actores gubernamentales**
 - Demanda agregada: optimización entre oferta y demanda
 - Interoperabilidad entre los sistemas
 - Comunicación garantizada y segura

GOVSATCOM

- **Apoyo rápido en zonas de emergencia**
- **Gestión de crisis**
- **Vigilancia**
- **Infraestructuras críticas**

HORIZON-CL4-2024-SPACE-01**
3/4 topics con restricciones

Dónde encontrarlo (Programa de Trabajo 23-24)

OJO

Specific conditions	The Commission estimates that the EU contribution of around EUR 20 000 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
Expected EU contribution per project	
Indicative budget	The total indicative budget for the topic is EUR 20 000 million.
Area of Action	Research and Innovation Actions
Administrability conditions	The conditions are described in General Annex A. The following exceptions apply: The page limit of the submission is 70 pages.
Eligibility conditions	The conditions are described in General Annex B. The following exceptions apply: If projects use satellite-based earth observation, positioning, navigation and/or related timing data and services, beneficiaries must make use of Copernicus and/or Galileo/EGNOS (other data and services may additionally be used). In order to achieve the expected outcomes, and safeguard the Union's strategic assets, interests, autonomy, and security, it is important to avoid a situation of technological dependency on a non-EU source, in a global context that requires the EU to take action to build on its strengths, and to carefully assess and address any strategic weaknesses, vulnerabilities and high-risk dependencies which put at risk the attainment of its ambitions. For this reason, participation is limited to legal entities established in the territory of the European Union or in the territory of a Member State of the European Union or in the territory of an eligible country established upon the following: (i) the United Kingdom is associated to Horizon Europe, and (ii) the United Kingdom's equivalent space calls are published and open to the EU entities on a reciprocal basis. Both conditions must be satisfied. For the daily justified and exceptional reasons listed in the paragraph above, in order to guarantee the protection of the strategic interests of the Union and its Member States, entities established in an eligible country listed above, but which are directly or indirectly controlled by a non-eligible country or by a non-eligible country entity, may not participate in the action unless it can be demonstrated by means of guarantees accepted by their eligible country of establishment that their participation to the action would not negatively impact the Union's strategic assets, interests, autonomy, or security. The guarantees shall in particular substantiate that, for the purpose of the action, measures are in place to ensure that: (a) control over the applicant legal entity is not exercised in a manner that frustrates or restricts its ability to carry out the action and to deliver results, that imposes restrictions concerning its infrastructure, facilities, assets, resources, intellectual property or know-how needed for the purpose of the action, or that undermines its capabilities and standards necessary to carry out the action; (b) managed by a non-eligible country or by a non-eligible country entity to sensitive information relating to the action is prevented, and the employees or other persons involved in the action have a national security clearance issued by an eligible country, where appropriate; (c) ownership of the intellectual property arising from, and the results of, the action remain within the recipient during and after completion of the action, are not subject to control or restrictions by non-eligible countries or non-eligible country entity, and are not exported outside the eligible countries, nor is access to them, from outside the eligible countries granted, without the approval of the eligible country in which the legal entity is established.
Technology Readiness Level	Activities are expected to achieve TRL 7 by the end of the project - The reference TRL definition is the ISO 16290:2013 applicable to the space sector.
Procedure	The procedure is described in General Annex C. The following exceptions apply: The grant authority can fund a maximum of one project.

Eligibility conditions

Limited to MS + NORWAY, ICELAND

+UK (a veces)

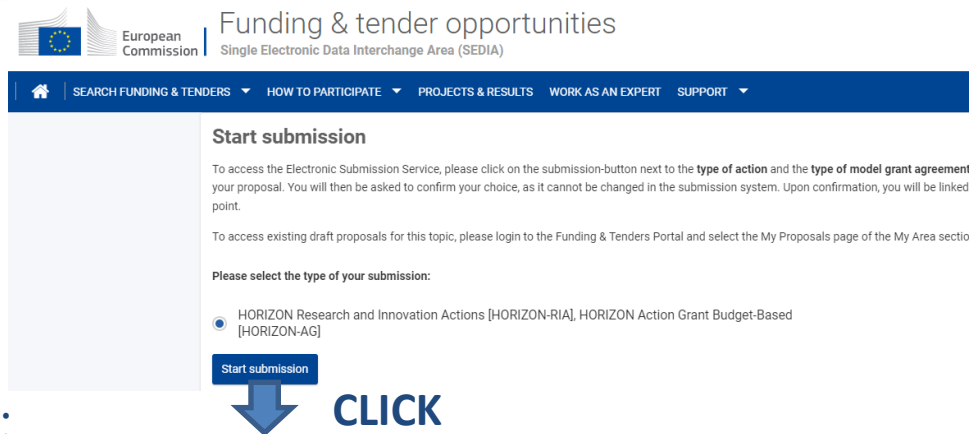

Even if entity in eligible country, provide **guarantees:**

- NO CONTROL
- NO ACCESS
- NO OWNERSHIP

from 3rd country

Dónde encontrar la **SELF DECLARATION (Funding and Tenders)**

- All declarations:
 - assembled by the **coordinator**
 - **uploaded** in a **single file**
- All **participants** must fill out the form:
 - except entities **validated** as public bodies by the Central Validation Service

Legal and financial set-up of the Grant Agreements

The rules are described in General Annex G. The following exceptions apply:

Eligible costs will take the form of a lump sum as defined in the Decision of 7 July 2021 authorising the use of lump sum contributions under the Horizon Europe Programme – the Framework Programme for Research and Innovation (2021-2027) – and in actions under the Research and Training Programme of the European Atomic Energy Community (2021-2025).¹.
