Condiciones de admisibilidad

Same general admissibility conditions

- Applications must be submitted before the call deadline, **electronically** via the Funding & Tenders Portal
- Applications must be **complete, readable, accessible and printable**, and include a **plan for the exploitation and dissemination of results**, unless provided otherwise in the specific call conditions.

Proposal page limit

- ❑ RIAs and IAs type of actions: limit for a full application is **45 pages**
- ❑ CSAs: limit is **30 pages**
- ❑ First stage proposals: limit is **10 pages**
- ❑ Exceptions, if any, would be specified in the call text.
 - ❑ Business case and exploitation strategy: **+ 3 pages**
 - ❑ RIAs and IAs + Lump Sum = **50 pages limit**
 - ❑ CSAs + Lump Sum = **33 pages limit**

| | |
|--------------------------|--|
| Admissibility conditions | <p>The conditions are described in General Annex A. The following exceptions apply:</p> <p>Applicants submitting a proposal under the blind evaluation pilot (see General Annex F) must not disclose their organisation names, acronyms, logos, nor names of personnel in Part B of their first stage application (see General Annex E).</p> |
|--------------------------|--|

Blind evaluation pilot

- **If indicated in the specific call conditions, first-stage proposals** of two-stage submissions will **be evaluated blindly** and **applicants may not disclose their identity in Part B** of their proposal.

[insert call identifier] – [insert call name]

⚠ Fill in the title of your proposal below.

TITLE OF THE PROPOSAL

⚠ This proposal is submitted to a call that is evaluated **blindly**. You must not disclose applicants' organisation names, acronyms, logos nor names of personnel in Part B of your application. If you do, your proposal will be declared inadmissible. You can include details of participants in the proposal Part A.

This document contains tags: they are needed for processing.] #@APP-FORM-HERIAIA1ST@# #@REL-EVA-RE@#

Legal and financial set-up of the Grant Agreements

The rules are described in General Annex G. The following exceptions apply:

Eligible costs will take the form of a **lump sum** as defined in the Decision of 7 July 2021 authorising the use of lump sum contributions under the Horizon Europe....

Lump sum

HOW DOES LUMP SUM FUNDING WORK IN PRACTICE? A QUICK GUIDE

01

LUMP SUM PROPOSALS

- Use the standard Horizon Europe proposal template. Address expected impacts and outcomes as in any Horizon proposal.
- No change in project design, except that work packages with a long duration may be split along the reporting periods. In this way, the relevant activities can be paid at the end of the reporting period.
- You need to provide a detailed breakdown of cost estimates to define and justify the lump sum. The estimates must be an approximation of your actual costs and meet the eligibility criteria of Horizon Europe. These cost details are needed to plan the budget of any proposal, even when they are not part of the proposal. The additional effort to include this information in a lump sum proposal should therefore be limited.

- % topics con LS:
Clúster 4 Industry. (≈25%)
Tipo de acciones: RIA - IA – CSA

Lump sum funding in Horizon Europe

The screenshot shows a navigation menu on the left with items: Overview, Guidance, Events, Opportunities, and Background. The 'Guidance' section is selected and highlighted. The main content area on the right includes sections for: Guidance (with a sub-section 'Lump sums – what do I need to know?'), Quick guide, Detailed guidance for applicants and beneficiaries, Lump sum reporting step by step, Frequently asked questions (FAQs), Expert briefing, and Reference documents. A red box highlights the 'Lump sum budget table' link under the Reference documents section.

Business case and Exploitation strategy

Exceptional page limits to proposals/applications

In order to include a business case and exploitation strategy, the page limit in part B of the General Annexes is exceptionally extended by 3 pages.

Business Case

- Target market
- Market size EU and globally
- User & Customer needs
- Matching at cost-effective manner
- Competitive advantage

Exploitation strategy

- Obstacles and actions to reach higher TRLs
- TRLs 7 strategy for full-scale manufacturing in the EU
- matching value chains, enhancing product robustness; securing industrial integrators; and user acceptance

Joint Research Centre, JRC*

| | |
|-------------------------------|--|
| <i>Eligibility conditions</i> | The conditions are described in General Annex B. The following exceptions apply: The Joint Research Centre (JRC) may participate as member of the consortium selected for funding. |
|-------------------------------|--|

- **Where provided for in the specific call conditions**, applicants may include in their proposals the possible contribution of the JRC but **the JRC will not participate in the preparation and submission of the proposal.**
- Applicants will **indicate the contribution that the JRC could bring to the project** based on the scope of the topic text.
- **After the evaluation process**, the **JRC and the consortium** selected for funding **may come to an agreement** on the specific terms of the participation of the JRC.
- If an agreement is found, the **JRC** may accede to the grant agreement as **beneficiary requesting zero funding or participate as an associated partner** and would accede to the consortium as a member.

A New Way to Build,

accelerating disruptive change in
construction

HORIZON-CL4-2023-TWIN-TRANSITION-01-11 (RIA)

Destination 1: Twin green and digital transition

A New Way to Build,
accelerating disruptive change
in construction

HORIZON-CL4-2023-TWIN-TRANSITION-01-11:
Intelligent data acquisition and analysis of materials and
products in existing built works (RIA)

- ✓ **Indicative budget: EUR 12 million**
- ✓ **EU contribution per project: EUR 5-6 million**
- ✓ **Type of Action: Research & Innovation Action**
- ✓ **TRL: start at TRL 4 and achieve TRL 6**
- ✓ **Se aplica Lump Sum y Blind evaluation (fase 1)**

Destination 1: Twin green and digital transition

A New Way to Build,
accelerating disruptive change
in construction

HORIZON-CL4-2023-TWIN-TRANSITION-01-11:
Intelligent data acquisition and analysis of materials and
products in existing built works (RIA)

Expected Outcomes :

*Identification, analysis and **digitisation of materials and products** from existing built works*

*Increased **construction products for reuse**, thus reducing the resource- and energy-intensity of the sector*

Reduction in construction and demolition waste

*Improved facility to **re-use and repair construction products***

*Improvements to **labour productivity***

Destination 1: Twin green and digital transition

A New Way to Build,
accelerating disruptive change
in construction

HORIZON-CL4-2023-TWIN-TRANSITION-01-11:
Intelligent data acquisition and analysis of materials and
products in existing built works (RIA)

Scope:

*New techniques and technologies to **rapidly identify materials** and
analyse properties*

***Digitally record** for tools and database*

Identify appropriate reuse, repair or recycling processes

***Circular use** as secondary materials*

Skills development and SSH aspects

materials development communities (CSA)

2 M€ / 1p

Destination 2: Increased Autonomy in Key Strategic Value Chains for Resilient Industry

Improving the resilience of EU businesses,

especially SMEs and Startups

HORIZON-CL4-2023-RESILIENCE-01-42: Boosting generation and diffusion of advanced technologies in SMEs based on a supply chain model (CSA)

- ✓ **Indicative budget: EUR 10 million**
- ✓ **EU contribution per project: EUR 2-3 million**
- ✓ **Type of Action: CSA**
- ✓ **TRL: NA**
- ✓ **Lump Sum**

Destination 2: Increased Autonomy in Key Strategic Value Chains for Resilient Industry

Improving the resilience of EU businesses,

especially SMEs and Startups

HORIZON-CL4-2023-RESILIENCE-01-42: Boosting generation and diffusion of advanced technologies in SMEs based on a supply chain model (CSA)

Some Expected outcomes:

*Build a **model for each industrial ecosystem to identify disruptions and technological opportunities***

Identify potential alternate suppliers of critical advanced technologies

Launch one pilot project per each industrial ecosystem

Increase the adoption of advanced technologies in traditional SMEs

Destination 2: Increased Autonomy in Key Strategic Value Chains for Resilient Industry

Improving the resilience of EU businesses,

especially SMEs and Startups

HORIZON-CL4-2023-RESILIENCE-01-44: Affordable Housing District Demonstrator (IA)

- ✓ **Indicative budget: EUR 10 million**
- ✓ **EU contribution per project: EUR 5 million**
- ✓ **Type of Action: Innovation Action**
- ✓ **TRL: NA**
- ✓ ***Demonstration activities in diverse geographical areas, those that ensure the most complementary geographical coverage***

Destination 2: Increased Autonomy in Key Strategic Value Chains for Resilient Industry

Improving the resilience of EU businesses,

especially SMEs and Startups

HORIZON-CL4-2023-RESILIENCE-01-44: Affordable Housing District Demonstrator (IA)

Some Expected outcomes:

Demonstrate innovation in renovation or construction of social housing

Mobilise cross-sectoral industrial and multi-stakeholder partnerships at local level

Focus on SMEs

Demonstrations on affordable technological innovation, social and green innovation, innovative partnerships.

Key words: New European Bauhaus, Affordable Housing Initiative, European Urban Agenda.

Proposal Idea Check

13th of March 2023

Proposal Idea Check is a free service offered by the international network of Horizon Europe Cluster 4 Industry National Contact Points, NCP4Industry. This form may be submitted by the coordinator or partner, however, it is highly recommended to submit it at least several months before the call topic deadline.

Please fill the template below and send your project idea **by 13th of March 2023**. The NCP4Industry network will be in contact with all the participants and the feedback meeting will be organised in February-March 2023.
